

AMANUEL ZERFU

Software Developer | Fullstack | Backend | Mobile

📞 (+251)940223403 | ✉️ acceptedamanuel@gmail.com | 📍 Addis Ababa, Ethiopia
🔗 linkedin | Stackoverflow | github

Senior Software Developer with over 5 years of hands-on experience in developing and maintaining web applications within commercial environments. Demonstrated ability to lead and manage teams effectively, while also thriving independently under pressure to deliver top-tier products within stipulated timelines and budgetary constraints. Possess a solid foundation in microservices architecture, cloud computing, and Agile development methodologies, ensuring the delivery of scalable and efficient solutions. Committed to continuous learning and innovation to drive excellence in software development practices.

EXPERIENCE

Backend Developer

Safaricom telecom Ethiopia (MPESA) Addis Ababa Ethiopia May 2, 2022, to present

Role Overview: Led the backend development for the Unified Business Portal, primarily focused on registering M-PESA Agents and Merchants.

Technical Proficiencies:

RESTful Web Services: Designed and deployed robust RESTful APIs using Spring Boot, ensuring scalability and security.

Java Spring MVC Applications: Developed and implemented Java Spring MVC applications, integrating front-end technologies like HTML, CSS, and JavaScript to deliver responsive and user-friendly interfaces.

Database Management: Expertise in developing and deploying applications utilizing a wide range of databases, including PostgreSQL, MongoDB, MySQL, and Oracle. Integrated Redis for efficient caching solutions.

Microservices Architecture: Engineered a microservice-based notification system for handling SMS and email queues using RabbitMQ, enhancing communication efficiency.

Continuous Deployment: Skilled in deploying applications using Git and Jenkins, ensuring streamlined CI/CD pipelines.

Containerization & Orchestration: Extensive experience in deploying containerized applications via Docker, orchestrated on Kubernetes clusters for optimal resource management.

API Optimization: Demonstrated expertise in optimizing APIs to improve system performance and reduce latency.

Agile Development: Applied Agile methodologies in application development and deployment, fostering a collaborative and iterative approach.

Soft Skills: Possess strong problem-solving capabilities and excellent communication skills, facilitating effective collaboration across multidisciplinary teams.

Backend Developer

Atlas computer technology Addis Ababa Ethiopia Dec 23, 2019, to Feb 25, 2022

Role Overview: Served as a Software Developer for 2.5 years, contributing to the Unicash Enterprise Web Application, a platform integrated with the Unicash payment system to streamline enterprise application payments.

API Development: Architected RESTful APIs using JEE and Spring frameworks, ensuring efficient and scalable backend operations. **Deployment & Infrastructure:** Managed deployment on a MySQL database using WildFly server infrastructure, with GitLab as the cornerstone for code versioning and collaboration. **Unicash Agent Application:**

Role Overview: Led the development of a web application over 1 year, designed to register Unicash agents and optimize float account management processes.

SKILLS

Web App development
Android app development

BACKEND

Java spring boot,php,
Javascript, NodeJs

FONTEND

HTML, CSS JS, Typescript
ReactJs, AngularJs, Laravel

Messaging

RabbitMQ, Kafka

DATABASE

Mysql, MongoDB, Postgres,
oracle, SQLite,
Redis(catching)

DEVOPS

AWS,Kubernetes, Git,
Jenkins

OPERATING SYSTEM

Ubuntu 20.04, windows

LANGUAGE

English ----- efficient
Amharic ----- native

EDUCATION

BSC Degree in Computer
science from Dilla
university (2014-2018)

Front End Developer

Atlas Computer technology

Role Overview: Served as a Front-End Developer, maintaining and enhancing the user interface of the Unicash Agent application.

Technologies Used: Angular, TypeScript, JavaScript, HTML, CSS, SCSS, RESTful APIs, Git, Agile/Scrum.

Key Responsibilities:

Application Development: Designed, developed, and maintained complex, user-friendly interfaces and components for the UniCash Agent application using Angular and related front-end technologies. **Code Quality and Standards:** Ensured high code quality by adhering to best practices and coding standards, conducting regular code reviews to maintain clean, efficient, and maintainable code.

Performance Optimization: Enhanced application performance through lazy loading, code splitting, and efficient state management, ensuring faster load times and improved user experience. **Bug Fixing and Maintenance:** Diagnosed, debugged, and resolved issues efficiently to maintain the stability and reliability of the application.

FREELANCE

Website Development using Drupal 8 ❖ Cisco Certified Network Associate (CCNA) in Routing and Switching ❖ Various Certificates in Programming Languages and Technologies from UDEMY

Mobile Developer(ANDROID)

Engineered an Emergency Notifier Android App, leveraging Google Map API and USSD service functionalities for real-time assistance and location-based notifications using Java and xml.

CERTIFICATIONS

Website Development using Drupal 8
